CONTACT

An **UX/UI** Designer
with a background in
nursing.

My deep-rooted empathy was a factor which helped me succeed as a nurse. In UX I see the need for empathy on the user side but also on the business side of things. Create for the user and finding that binding bridge which aligns with the business is key. With that it seemed to me a natural development to further my learning with UX/UI Design.

LET'S TALK!

Thanks for investing your valuable time to look at my
portfolio.
Let's hop on a call.
